Portrayed outside the legendary black door are Mayor of London, Boris Johnson, and Prime Minister, David Cameron, whilst German Chancellor, Angela Merkel, and French President, François Hollande, are just a stone's throw away.

THE CHAMBER OF HORRORS ... AND SCREAM

Madame Tussaud's history is rooted in the horror of the French Revolution where she was forced to make death masks of the victims of Madame Guillotine - and some of those death masks can still be seen in The Chamber of Horrors at Madame Tussauds London. The infamous Chamber of Horrors, a name coined by Charles Dickens, has over the centuries featured wax figures of some of history's most notorious murderers, from 10 Rillington Place's John Christie, to the acid bath killer, John George Haigh. Their crimes continue to shock the world and their figures serve as a chilling reminder of their deadly deeds. An altogether more modern addition to The Chamber of Horrors is a live action, scare maze with only ONE way out. Located deep within The Chamber of Horrors lies a secret inner chamber housing a maximum security prison where the inmates have taken over. Live and on the loose, the prisoners want nothing less than to make guests SCREAM.

THE SPIRIT OF LONDON RIDE

Hop into one of London's famous black taxis and take a journey back through history on the Spirit of London Ride. From the comfort of a miniature cab guests will be transported from Tudor England to the 20th century, travelling through scenes featuring wax figures of some of London's best known characters with animatronics, special effects and a fun sound track. From the golden age of Queen Elizabeth I to the Great Plague and Fire of London to Wren's re-building of the Capital right through the Victorian age to World War II and the swinging sixties, the Spirit of London is a whistle stop tour through 400 years of London life.
